**THIRD QUARTERLY RESULTS ANNOUNCEMENT  
FOR THE NINE MONTHS ENDED 31 MARCH 2019**

**CHARACTERISTICS OF THE GEM OF THE STOCK EXCHANGE OF  
HONG KONG LIMITED (THE “STOCK EXCHANGE”)**

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

*This announcement, for which the directors (the “**Directors**”) of Super Strong Holdings Limited (the “**Company**”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the “**GEM Listing Rules**”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief the information contained in this announcement is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this announcement misleading.*

### ***Equity-settled share-based payment transactions***

Equity-settled share-based payments to employees and others providing similar services are measured at the fair value of the equity instruments at the grant date. Details regarding the determination of the fair value of equity-settled share-based transactions are set out in note 7 to the condensed consolidated financial statements.

The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straightline basis over the vesting period, based on the Group's estimate of equity instruments that will eventually vest, with a corresponding increase in equity (share option reserve).

At the end of the reporting period, the Company revises its estimates of the number of options that are expected to ultimately vest. The impact of the revision of the estimates during the vesting period, if any, is recognized in profit or loss such that the cumulative expense reflects the revised estimates, with a corresponding adjustment to share options reserve.

For share options that vest immediately at the date of grant, the fair value of share options granted is expensed immediately to profit or loss. When share options are exercised, the amount previously recognised in share option reserve will be transferred to share premium. When share options are forfeited after the vesting date or are still not exercised at the expiry date, the amount previously recognised in share option reserve will be transferred to retained earnings.

Equity-settled share-based payment transactions with parties other than employees are measured at the fair value of the goods or services rendered, except where that fair value cannot be estimated reliably, in which case they are measured at the fair value of the equity instruments granted, measured at the date the entity obtains the goods or the counterparty renders the services.

An offer may not be accepted by an Eligible Participant who ceases to be an Eligible Participant after an offer is made to him but before his acceptance. No offer shall be capable of or open for acceptance after the date that falls on expiry of 10 years commencing on the date of which the Share Option Scheme is adopted.

Share Options exercise price is the highest of (i) the nominal value of a share of the Company; (ii) the closing price of the Shares as stated in the daily quotations sheet of Stock Exchange on the date of the offer for granting the Share Options; and (iii) the average price of Shares as stated in the daily quotations sheets on the Stock Exchange.

Grant date share price:	HK\$0.300
Exercise price:	HK\$0.307
Expected life:	5 years from vesting date
Expected volatility:	55.77%
Dividend yield:	0%

Such increase was mainly attributable to increase of gross profit margin of new projects during the Relevant Period.

#### Other Income

The Group's other income amounted to approximately HK\$2.6 million and approximately HK\$0.8 million for the nine months ended 31 March 2018 and the Relevant Period respectively. The decrease was mainly due to the decrease of financial guarantee income for the Relevant Period.

During the period, pursuant to a sale and purchase agreement dated 14 February 2019, the Group has disposed 49.06% of the entire issued share capital of a subsidiary company, Unimax Property Consultancy Limited recognising a disposal gain of approximately HK\$70,000 (the “**Disposal**”). The Disposal constituted a major transaction for the Group and is subject to notification, announcement and shareholders' approval requirements under Chapter 19 of the GEM Listing Rules. An extraordinary general meeting had been held on 4 April 2019 for that purpose, in which shareholders had approved the Disposal accordingly.

## **BUSINESS REVIEW AND OUTLOOK**

The Group is principally engaged in general building works and specialised building works on contract base in Hong Kong.

During the period, competition in construction market is particularly keen. The Group is facing the ever largest competition in tendering projects. Despite that the Group has lower down its profit margin to tender for projects, getting new projects is difficult. With a healthy financial position, the Group insists to submit tenders with a reasonable profit margin and will not compete with the unreasonable bids with the risk of running at an operational loss.

With the Group's experienced management team, long-term relationship with customers and creditability in the market, the Directors consider that the Group is well-positioned to compete against its competitors and the Group will continue to adhere to our one-stop-shop strategy and prudent financial management. We are confident that we could undertake some new projects with better margins in coming days. Under the current exceptional keen competition in the construction market, the Directors may also consider other investment opportunities to broaden the base of the return of the Group and to maximize the returns to shareholders. In doing so, the Directors will bear in mind the associated risk of any potential investment.
